2. **NEW BUSINESS**

A. **Discuss Street Maintenance Issues**

Mayor Skrede stated that a discussion regarding street maintenance is important because street maintenance is such a large part of our budget, it will help to reevaluate Councilmember Gustafson's street improvement grading system, and provide a review on what we currently do for street maintenance.

Discussion was held regarding the various types of street improvements, including seal coating, mill & overlay, reclamation, and total street reconstruction. David Martini estimated the cost of these various types of street improvements as follows:

Seal coating	-	\$3.00 per S.Y.
Mill & overlay	-	\$15.00 per S.Y.
Reclamation	-	\$25.00 per S.Y.
Reconstruction	-	\$45.00 per S.Y.

Further discussion was held on the benefits of our current patching program and what method or grading system should be used for determining the selection of a specific street for improvement.

Mayor Skrede stated that the Public Works Committee will continue to discuss a grading system to be used for prioritizing the upgrade of city streets.
